

Be Ready! Tornadoes

www.cdc.gov/phpr/infographics.htm

Get out!

Don't stay in a mobile home during a tornado. Find a sturdy building or seek shelter outside.

Look up!

If you see any of these danger signs, take shelter immediately:

- a dark or green colored sky
- large, dark, low-lying cloud
- large hail
- loud roar similar to a freight train

Watch out!

Most fatalities and injuries are caused by flying debris.

Stay tuned!

Listen to local radio and TV stations for weather updates. Take shelter if a tornado warning is issued.

Tornado watch:

Tornadoes are possible. Be alert to changing conditions.

Tornado warning:

A tornado has been sighted or indicated by weather radar. Take shelter immediately.

Be cautious!

Do not try to outrun a tornado. If possible, seek shelter in a sturdy building.

Take cover!

To shelter outside, lie down flat in a gully, ditch, or low spot on the ground. Protect your head from debris.

Take shelter!

The safest place is the interior part of a basement or an inside room, without windows, on the lowest floor.
